He submits a statement showing the grant owning the survey settlement and 4 different nos: - total extent 677 acres, assessed at Rs 254

The foregoing orders were communicated to the Deputy Commissioner in this office docket No 1178 & Rev 414 & 25th July 1895.

No 1413/348 & 12th Octr/95.

The Dy Commissioner now submits the Remanded papers with the Settlement record (Lavani Physal Patrik) relating to the Villages of Siddasahalli, Alambadi & Jagadenahalli in which the marginally noted lands are stated to have been granted on Inilgaval tenure. Though there is nothing in the Physal Patrik to show that Survey No 135 of the Jagadenahalli Village has been granted on Inilgaval tenure, it is not possible to ascertain how and on what authority, the Survey Department allowed such a tenure in the three Villages referred to. This may, if approved, be ascertained from the Survey Supdt. The Dy Commissioner

also reports that the applicants have since given a kyfish stating that each of them requires 30× acres of land for planting purposes on the conditions laid down in appendix H attached to the Revenue Rules & that the District Forest Officer who has inspected the whole extent, has recommended the grant of 20 or 25 acres of land for planting purposes.

It may here be submitted that it is not from any forest point of view that the District Forest Officer recommends the grant of only 20 or 25 acres out of the total area of 60 acres applied for but it is on the supposition that there may be more applicants for lands for planting purposes.

After reading the above note, I feel a doubt whether I am right in thinking that "unoccupied Crown lands" did not include Gomal lands. On inquiry made in the office, I have ascertained that no title deeds, Gomal lands have been given away under the provisions of Act No. 8 of 1893 (Repealed) namely Waste Lands Alienation Act. But the conveyances executed by the Commissioners & submitted that applications received in the Revenue Department may be taken as Considered.
